Details

ADP is hiring for the role of QA Engineer!

Responsibilities of the Candidate:

- Contribute to the design and architecture of software solutions, ensuring they are amenable to test.
- Planning tests, including the definition and management of suitable test data, and managing the trade-offs for thoroughness/completeness vs. development & maintenance effort on one hand and time to execute on the other.
- Reduce friction and latency in the development cycle through automation and immediate feedback; not only test but also build, deployment, monitoring, etc.
- Writing great software to support agile software engineering practices (e.g., TDD, continuous integration, automated tests, etc.) Collaborating with product owners, stakeholders and potentially globally distributed teams. Work cross functional in an Agile environment.
- Ensure that our applications can scale to match huge demand across the world. Sweat about milliseconds of response time and obsess over the next 1 percent of efficiency.
- Excellent problem-solving, organizational and analytical skills

Requirements:

- Master's / Bachelor's degree in Computer Science or related field with over 3 years experience.
- Knowledge of one of the following languages JavaScript, TypeScript, Java, Python.
- Experience building and executing automated tests using Selenium, playwright will be an added advantage.
- At least 2 years of experience testing software and web applications in an agile environment.
- Knowledge in automating UI tests with Selenium and Ruby.
- Knowledge of JavaScript, CSS, Web Standards and experience testing REST-based APIs.
- Experience configuring Jenkins and extending it with custom plug-ins.

- Understanding of enterprise-level automation needs and solutions (parallelism, distribution, etc.) Familiarity with client-side MVC frameworks.
- Experience with at least one major server-side web development stack, preferably ASP.NET Technical knowledge of at least one major RDBMS, preferably SQL Server.
- Strong verbal communication, cross-group collaboration skills, analytical, structured and strategic thinking. Great interpersonal skills, cultural awareness, and belief in teamwork.

If an employer asks you to pay any kind of fee, please notify us immediately. Unstop does not charge any fee from the applicants and we do not allow other companies also to do so.
