Job Summary:

We are looking for a skilled Full-Stack Developer with strong Angular expertise and experience in both front-end and back-end development. The ideal candidate will collaborate with our development team to build high-quality, scalable web applications and deliver enhanced user experiences. You will take ownership of features across the stack—from UI components to server-side logic—and work with modern frameworks and technologies.

Must-Have Skills & Tools:

- Proven track record of delivering Angular-based applications combined with backend API development.
- Frontend: Strong proficiency in Angular, TypeScript, HTML5, CSS3, JavaScript
- Backend: Hands-on experience with Java or Node.js (with Express.js)
- APIs: Experience creating and integrating with RESTful APIs
- Database: Solid understanding of relational databases (MySQL, PostgreSQL)
- Version Control: Proficient in Git and collaborative development workflows
- Teamwork: Strong communication and ability to work in agile, collaborative environments

Qualifications:

- Bachelor's degree in Computer Science, Engineering, or equivalent
- Minimum 1 year of hands-on full-stack development experience

Good to Have:

- Experience with NoSQL databases
- Familiarity with cloud platforms and deployment workflows
- Experience with CI/CD pipeline tools

- Exposure to testing frameworks

Responsibilities:

- Develop, test, and maintain scalable full-stack web applications
- Build reusable and optimized frontend components using Angular
- Integrate dynamic data and visualizations in the UI
- Design and maintain backend logic using Java or Node.js with Express.js
- Create, consume, and document RESTful APIs
- Write and optimize SQL queries and manage database schema changes
- Collaborate with cross-functional teams for smooth feature delivery
- Troubleshoot, debug, and resolve application issues promptly
- Participate in peer code reviews and follow coding standards & best practices
- Assist in deployment and maintain applications on cloud environments

If an employer asks you to pay any kind of fee, please notify us immediately. Unstop does not charge any fee from the applicants and we do not allow other companies also to do so.
